

Interparfums improves its ESG rating in 2022

Interparfums has made further progress in the areas of environmental, social, and corporate governance (ESG) based on the results of the 2022 campaign of the rating agency Gaïa Research* which ranks the top performing companies in this area. This score is calculated on the basis of 140 criteria divided into 4 pillars: *Environmental, Social, Governance and External Stakeholders*.

Campaign For FY	2020 2019	2021 2020	2022 2021
ESG Rating	69/100	76/100	81/100

Interparfums has continued to progress and is now highly ranked in all three Gaïa categories (country, business sector and revenue).

Category Country	Category Sector	Category Revenue (> €500m)
13/371	1/23	4/176

This progress, spearheaded by the CSR Executive Committee created at the end of 2020, in large part reflects significant gains in the *Environmental* area (+15 points), with significant advances in product eco-design and monitoring scope 3 greenhouse gas emissions, as well as in *Governance* (+5 points), with the formalization of a business ethics charter. Performances in the *Social* and *External Stakeholders* areas, already very high in absolute terms and largely stable respectively, still managed to improve slightly.

Philippe Santi, Executive Vice President, commented: “*Our commitments to the preservation of our environment and our position as a responsible employer over the past two years have never been greater. And while the improvement in our rating in recent years is a testimony to this commitment, we are also confident that we will continue to progress in all these areas in the future. The recent creation of an Individual Shareholders’ Consultative Committee provides yet another example of this trend.*”

* Gaïa Research, a member of the EthFinance Group is an extra-financial rating agency specializing in rating the ESG performance of SMEs and mid-cap companies listed on European markets.
